**1. What is your connection or interest in this case? \* For example, are you a customer of the Company that is the subject of this pending proceeding? (This section must be completed. Attach additional information if necessary.)**

Customer of the company

**2. Please give a concise statement of your protest. \* (This section must be completed. Attach additional information if necessary.)**

I cannot justify a rate increase to a company that has let their equipment and service fall into total dis-repair AND that still supplies use with water that has a large quantity of silt in it. We had total new plumbing installed in 1996, and by 2000 several of our piston water valves were silt scored and leaking; the water heater valve was full of silt while the tank had 7 1/5 gallons of silt in it...we installed a new water heater and two shower valves. During 2006 we had a similar problem, had the water heater cleaned an rebuilt, and replaced valves again. The Tega Cay Water Service did respond and plastic signs in the kitchen and both bathrooms in three languages stating "Drinkable Water Is Not Garenteed" and one is still in the kitchen. This year, AGAIN, another new water heater, faucets, and A FULL HOUSE FILTRATION SYSTEM. The primary cartridge silt filter is designed for 90 days, BUT with our wonderful water has to be changed every 30 to 40 days.

If this was a NORMAL business without a captive client base, they would have been out business - AND - now being TCWS is being forced into repairs - why do we have to be punished - TCWS has had two raises this past decade - NO MORE

**3. Do you wish to make an appearance at a hearing in this proceeding , if scheduled, and offer sworn testimony? \***

I will attend - but not to talk, unless called to do so.
